Master REAR LIFT

The Renault Master is a van that adapts to your needs. It is instantly distinguished through a more dynamic front end and the signature C-shaped headlight design.

The Master offers both practicality and versatility in abundance with no compromise in comfort. With a range of options and a high specification as standard the Master is ideal for wheelchair access conversions.

Available in three sizes, the SL short wheelbase with low roof, the MM medium wheelbase with medium roof and the LM long wheelbase with medium roof. Also having the option of either the Business or Business + specifications. The Master Rear Lift conversion provides a wide range of seating plans.

The Master Rear Lift comes the unrivalled space, safety and user-friendly wheelchair travel.

This rear wheelchair passenger solution vehicles is fitted with a fully automatic hydraulic lift and a handy remote control. Both wheelchair and mobility scooter users will feel at ease entering and exiting the vehicle using the lift, which is capable of lifting up to 400kg and comes in a range of platform lengths.

Once inside, the wheelchair is secured in place by high-quality front and rear floor restraints locked into a specialist floor rail system, while lap and diagonal seat belts ensure optimum safety for the wheelchair passenger. We also fully test all our conversions and are certified to meet the highest automotive and accessibility standards.
