THE UK'S ORIGINAL MANUFACTURER & SUPPLIER
OF WHEELCHAIR ACCESSIBLE VEHICLES

The Vauxhall Combo Life is a wonderful addition to the Gowrings Mobility fleet of wheelchair accessible vehicles (WAVs). With premium comfort, this multipurpose vehicle meets all wheelchair user's requirements. It has been designed to give WAV owners so much more in terms of practicality, space and smart features.

The Combo Life has a high specification as standard but is further enhanced specifically for wheelchair users: highly adaptable and able to accommodate many types of wheelchairs.

This modern, stylish WAV is a great vehicle for your day-to-day needs but also for those special family getaways. It's a very versatile car!

Make more of your time – drive a Combo Life.

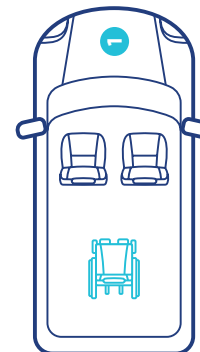

OUR CONVERSION

At Gowrings Mobility we take great pride in our vehicle conversions and provide our customers with a wheelchair accessible vehicle that has been designed and fully tested to deliver an exceptional passenger experience.

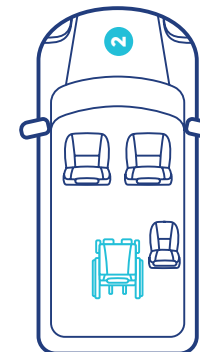

A light weight non-slip ramp makes entry into the rear cabin space a simple task while the four point wheelchair securing system ensures optimum safety. The incorporation of a lowered rear floor creates a spacious environment with greater visibility for the wheelchair user. This WAV is fully compliant with heavy duty wheelchair requirements.

The adaptable passenger space offers the ability to carry up to five occupants (including wheelchair passenger). This flexible space allows the option of a seat either side of the wheelchair allowing all rear passengers to sit together.
