

# BreezeS3 & S4

## The ultimate scooter for comfort and capability.

The TGA Breeze S brings you the ultimate in advanced comfort, performance and looks that have set the standards within the mobility scooter industry, year after year, mile after mile.

The reasons for their popularity are simple. The all-round, fully-active and adjustable suspension delivers unrivalled comfort and stability. The advanced motorcycle style engineering provides safety and performance. A powerful motor, large wheels and pneumatic tyres provide maximum ground clearance, making kerbs and rough ground quite simply a breeze.

Breeze S has been designed with a range of unique options and upgrades making them totally customisable to suit your individual needs. All of our experience over 25 years has gone into this, our flagship model. Everything about the Breeze S has a true top of the range aura of quality and effortless style.

- Industry-leading levels of ride and comfort
- Great ground clearance and stability over rough terrain
- Options and configurations to suit individual needs
- Plentiful storage including lockable rear box
- Range of up to 30 miles (48km)
- User weight up to 31 stone as standard (200kg)

"This is the third Breeze I've bought and the new S model is even better than the previous. So many people stop me to ask 'where did you get this amazing scooter from?' I'd be lost without it."

T Harris

## Upgrade: Breeze S4 Max

Increased weight capacity to 39 stone (248lbs). Large 24" (600mm) seat for extra comfort and support. Reduced speed (6mph) to increase torque

## Upgrade: GT

Wider rear wheels and tyres to give extra traction and stability whatever the terrain

## Upgrade: Solid Canopy

A feature totally unique to the Breeze S, available for both S3 and S4.

A strong tubular framework fixes directly onto the chassis with a perspex screen and roof to keep you covered in all weathers – detachable clear vinyl sides make the Breeze S usable all year round.

For more information as to how you can create a Breeze to your own specifications, please call us on 0800 107 5349.
