Introducing *Inspire™*

Discover a renewed sense of freedom with our brand-new Drive From wheelchair accessible vehicle, Peugeot *Inspire™*, available exclusively from Allied Mobility.

Based on the Peugeot Rifter and coming in the impressive Allure Premium specification as standard, which includes top of the range features such as a colour reversing camera, *Inspire™* makes independent travel possible for wheelchair users.

With one-touch automatic tailgate and wheelchair ramp release, *Inspire™* is designed to ensure you can easily enter the vehicle in your manual or powered wheelchair to the driver or upfront passenger position without assistance from a fellow traveller. *Inspire™* lets you go where you want, when you want.

Call us today **0800 069 8446**

- 1 » Reliable, powerful & sleek design
- 2 » One-touch automatic tailgate open
- 3 » One-touch automatic wheelchair ramp release
- 4 » Colour reversing camera
- 5 » Parking sensors to help you manoeuvre
- 6 » 3-year/60,000 miles Peugeot warranty

What is a Drive From WAV?

A Drive From WAV (DFW) is a specially designed vehicle which enables you to drive from your wheelchair. By removing and stowing the original driver seat, space is created for your manual or powered wheelchair.

Using a handy key fob, your tailgate is opened automatically which releases your low-gradient wheelchair ramp, allowing you to enter your Drive From WAV safely from the rear of the vehicle. Once inside, you'll find superb visibility and an automatic safety system to secure your chair in place.

If you've just started looking at cars you can drive in a wheelchair, it's good to get expert advice. At Allied Mobility, our trained and friendly mobility consultants can talk you through how to personalise your *Inspire™* to ensure you have a safe and comfortable drive.

@alliedmobility

What is an Upfront Passenger?

If you don't plan on driving and you would prefer to travel in the upfront position alongside the driver in your wheelchair, *Inspire™* is the choice for you.

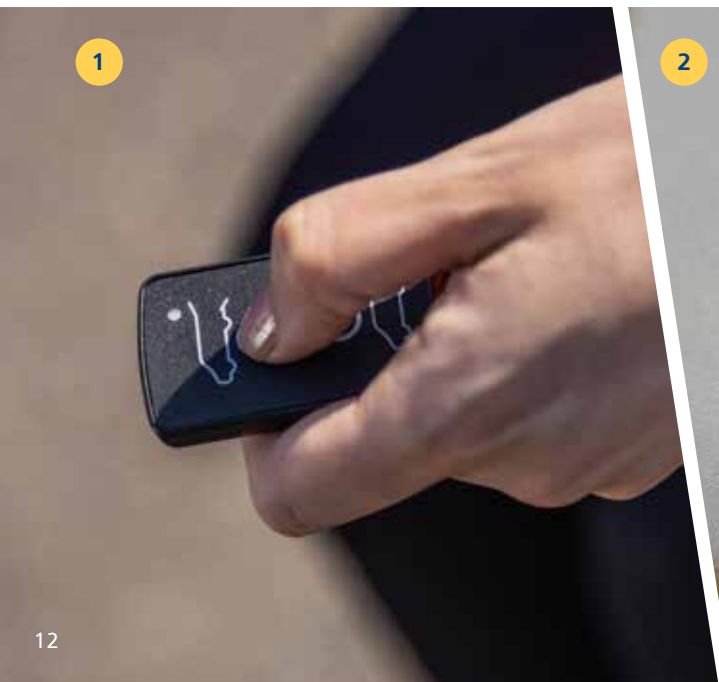

With the original Peugeot front passenger seat easily removed, a wheelchair or powerchair can enter by the rear access ramp and move right up to the forward position. An independent automatic safety system or four-point tie downs can be used to secure your chair in place, alongside a full lap and diagonal seatbelt, ensuring a safe and comfortable journey.

Visit www.alliedmobility.com/inspire

- 1» One-touch key fob
- 2» Internal ramp/tailgate release and close
- 3» Air suspension to lower the WAV for easy low-gradient ramp entry
- 4» Personalised hand controls and driving aids

Charitable Grants from Motability

You may be eligible for a Charitable Grant from Motability which will help towards the cost of ensuring you can drive independently.

Motability's Complex Driving Solutions Programme can help with the cost of your Advancement Payment or the personalised driving adaptations and aids you require. It's important to know that all grant applications are means-tested so Motability will look at your financial situation, including household income and savings and may ask you to make a contribution towards the vehicle yourself.

To find out more or to apply for funding, contact Motability on 0800 500 3186, email grantsteam@motability.org.uk or visit their website for more information.

Vehicle Features

Brand-new *Inspire™* is a modern WAV with a stylish base vehicle, brimming with exciting features for your comfort and safety.

What's more, this latest addition to our range comes comes in Allure Premium spec as standard. This means you can enjoy additional user benefits including colour reversing camera, parking sensors, electric parking brake and PEUGEOT i-Cockpit® 8" colour touchscreen with in-car entertainment system, which mirrors your Apple or Android smart phone. There's also a stylish body-coloured front bumper and Taranaki alloy wheels to finish the sleek look of the all-new *Inspire™*.

Personalise Your Inspire™

We're all unique when it comes to our driving needs so no two Drive From vehicles are the same. To ensure you have a safe and comfortable drive, we'll help personalise your Inspire™ with driving adaptations and aids, customised to suit your needs.

On your home demonstration and test drive, your dedicated mobility consultant will assess your strength and range of movement and suggest suitable driving adaptations. If you already use these in your current car, we can aim to replicate what you're already comfortable with. Either way, our goal is to ensure your driving experience is as smooth and enjoyable as possible.

The driving aids that you choose will be carefully measured at your demonstration by your mobility consultant so they're in a comfortable position for you. They'll also return on your delivery day and ensure you're confident and comfortable using all the accessible features of your new car.

Your Driving Assessment

If you're new to wheelchair driving or you're changing your current driving adaptations, your expert Allied Mobility consultant will provide a thorough evaluation of your driving ability.

They'll test things like your vision, reactions, awareness and ability to operate your personalised driving aids. This ensures your safety on the road and suitability for driving.

You may be asked by the DVLA or Motability to visit a driving assessment centre. These are certified centres found throughout the UK. You can find your local assessment centre by visiting www.drivingmobility.org.uk.

Email: info@alliedmobility.com

Your Allied Mobility Journey

You'll have a dedicated mobility consultant to guide you through your journey.

- 
-  First our Drive From and Upfront Passenger vehicle specialists will discuss your requirements with you, over the phone.
 -  We bring a vehicle to your home for a free demonstration and test drive, at a time that suits you.
 -  We discuss which personalised driving adaptations you need.
 -  Once you're completely happy with your choice, we can help with your Motability paperwork or suggest alternative finance options.
 -  We'll arrange delivery on a date that suits you.
 -  Your dedicated mobility consultant will give you a refresher on the accessibility and safety features of your new car.
 -  Now it's time to hand over the keys! Around four weeks later, we'll pop back round for your familiarisation check. We can help with any questions you still have about your car.
 -  Our Allied Autocare team will provide a safety check every six months. They can even offer to fully service your car, at your home address.

For further information or to arrange a free home demonstration give our mobility advisors a call, email us or visit our website.
