

CITROEN SPACETOURER QUANTUM

Wheelchair Accessible Vehicle

DESIGNED WITHOUT COMPROMISE

The Citroen Spacetourer Quantum takes WAV design to a new dimension. Blending French flair with our engineering skill the Quantum's compact exterior belies an interior with plenty of room.

The needs of the wheelchair passenger are at the heart of the Quantum. A low angle ramp makes access as easy as it can be and securing the wheelchair passenger in the second row makes it as comfortable and inclusive as it can be.

Optional additional seating can turn the Quantum into a 6 seater plus wheelchair passenger.

WHEELCHAIR ACCESSIBLE FEATURES

- 1** Lightweight easy-to-use bi-fold ramp
- 2** Lowered floor for optimum headroom
- 3** Optional rear tip and fold seats
- 4** Optional winch available
- 5** Low gradient ramp for minimal effort
- 6** High quality four point restraints
- 7** Safety tested to EC Whole Vehicle Type Approval
- 8** Fully compatible with UK Wheelchair Accessible Vehicle standard - PAS 2012

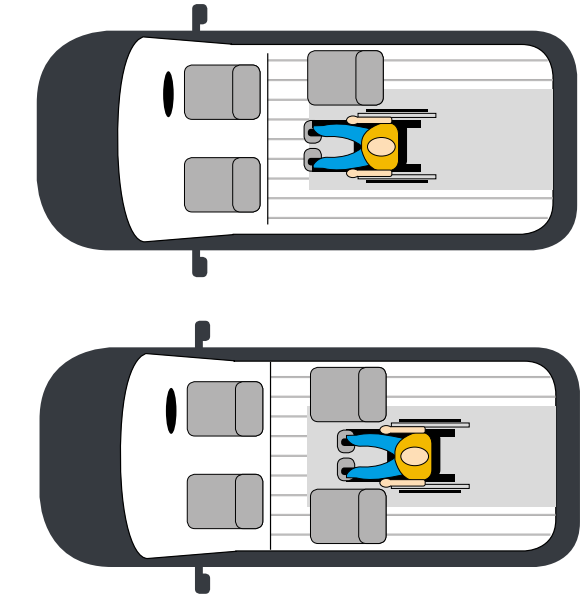

COMFORT WITHOUT COMPROMISE

SEATING LAYOUTS

In its standard layout the Spacetourer comes with one rear OEM seat as standard.

Optional extras include an additional seat in the second row and tip and fold seats in the third row.

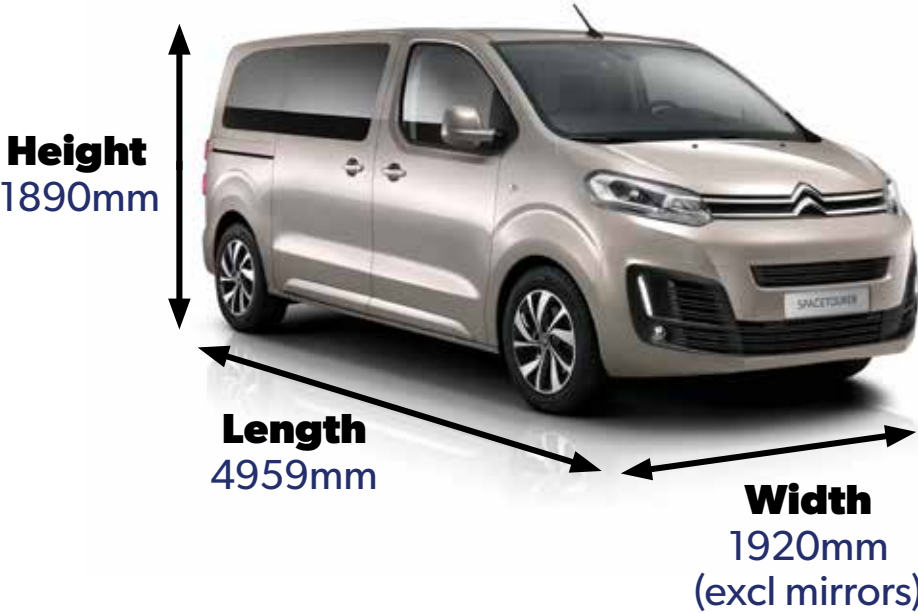

ACCESS FOR ALL

AIR CONDITIONING AS STANDARD

USB AND 12V SOCKET

SAFETY FIRST

ABS with Electronic Brakeforce Distribution (EBD)

EBD is a system that stabilises the amount of braking force on each wheel of the car. In doing this, electronic brakeforce distribution provides stronger and safer braking performance in emergency scenarios

Automatic door locking when moving off

All doors will lock automatically when the vehicle reaches a particular speed

Electric child locking functionality on rear doors
Lock and unlock the rear doors to keep the rear passengers safe

Hill Start Assist

Prevents the vehicle rolling back on a hill when the brake pedal is released keeping you stationery for around 2 seconds

Blind spot monitoring system (Flair)

Driver alert system if someone has moved into a critical area where it's hard to see by using your mirrors. A bright orange light illuminates in the wing mirror to warn you. stationery for around 2 seconds

Driver attention alert system

Assesses your level of alertness by spotting directional changes in relation to road markings.
