

# WHILL Model C2

## Style. Freedom. Independence.

Whill enables you to be spontaneous and free. It all starts with great design giving you the confidence to be you, with innovations to suit your lifestyle.

Use the simple iPhone app and Bluetooth technology to drive your WHILL Model C2 remotely, bring it over when you need it and store it out of the way when you don't. Lock and unlock your WHILL using the app and monitor all functions including battery life.

One of the most striking features of the WHILL Model C2 is the omni-wheel. Like no other wheel, it allows you to turn on the spot with the tightest turning circle on the market. There are no traditional castors so you have complete 360° control. It's tough too – the suspension provides the ability to tackle gravel, grass or uneven surfaces with comfort and control.

From the intuitive controls for agile movement to the electromagnetic brakes for safety, the WHILL Model C2 puts you firmly in command. With fully responsive systems and four speed settings, your WHILL is agile and reactive.

The WHILL Model C2 is designed to complement your lifestyle so it goes wherever you go. It disassembles in seconds into four lightweight pieces that easily fit into a standard car boot.

- Stylish design – choice of four colours
- Three seat sizes 16", 18" & 20" fully adjustable
- Bluetooth technology – for remote operation
- Clear display accurately showing remaining battery power
- Lightweight lithium battery 18km range, 5 hour recharge

"I absolutely love my WHILL – it is so comfortable and so manoeuvrable. I find its design is always a talking point. People say to me, 'wow, how does that work?' I sneak into spaces I would never dream of doing in any of my other wheelchairs."

Dr Michael Bolton

Specification and comparison table on Page 82-83

Maximum Speed (up to)	Maximum Weight	Range (up to)	Total Weight
4mph	21.5 stone	11 miles	52.5kgs

## The unique omni wheel system

The innovative alternative to traditional caster wheels, the large omni wheels have 24 revolving sections to allow on the spot rotation within a very tight 29.8" (76cm) turning circle.

## The right fit

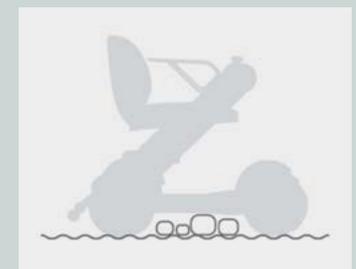

Model C2 can be easily adjusted from the seat depth and height to the controller position (right or left drive), to fit you and create a comfortable driving experience.

## Advanced ground clearance

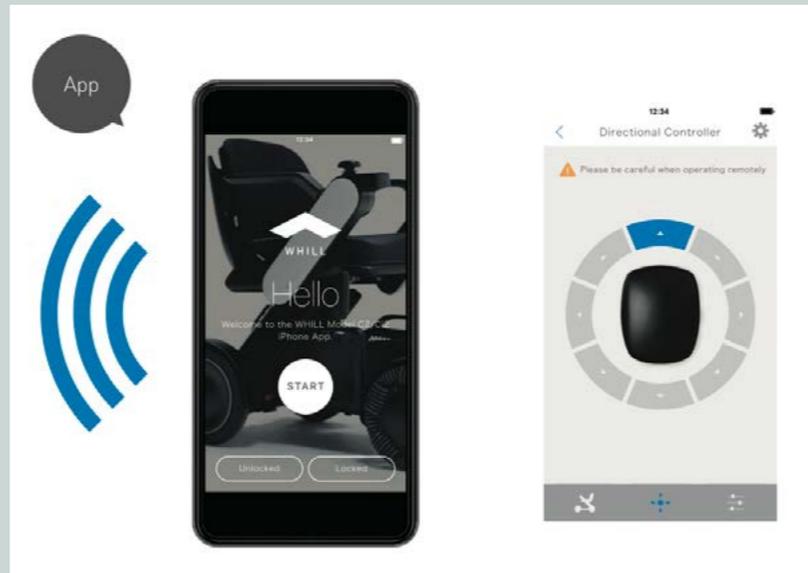

Effortlessly climb over obstacles up to 1.9" (5cm) in height with its two powerful motors and large front omni wheels.

Travel unhindered over rough terrain with a 2.3" (6cm) ground clearance.

## Features for WHILL Model C2

Featuring remote control driving and secure lock and unlock function via an easy to use Apple iOS app. Monitor performance and battery life in real time.

Comfortable controls for effortless steering and safe manoeuvrability including four speed settings, a safety horn and battery life indicator.

An 11 mile range and only five hours charge time.

A lock installed on the battery so it locks without the use of a battery key.

## Feel safe and secure

Two tail lights on the end of arms, improving visibility from both sides.

Footplate folds up and arm rests easily rotate out of the way for easy access and barrier-free use at tables.

WHILL Model C2 comes with the choice of either a 16", 18" or 20" seat.

Rear suspension for shock absorption to ensure seamless journeys. Effortlessly climb over obstacles up to 2" in height.

### Ultra-portable design

It takes just seconds to disassemble the WHILL Model C2 into just four compact pieces. The entire chair fits easily into a standard sized boot.

### Multi-award winner

#### The Red Dot Design Award

An internationally recognised product design and communication design prize awarded by the Design Zentrum Nordrhein Westfalen in Essen, Germany.
