

FR1 CITY

COMFORT & STYLE ABOUT TOWN

From the 'next generation' stable of scooters, the FR1 City is built to tackle the road ahead with ease. The smallest and nippiest of all the FR1 range.

SAFETY BUILT IN

A halo day-time running light at the front guides your way and highlights you to pedestrians and vehicles alike. Brake lights at the rear as standard and indicators all round. Be safe, be seen.

COMFORT IS KEY

Suspension front and rear, a fully adjustable gas-strut tiller, delta handlebar and a padded captain's seat ensure a comfy ride no matter how long the drive.

NOT JUST A PRETTY FACE

Packed into the nippy wheelbase you will find twin 50Ah batteries and a 600 watt motor, giving a top speed of 8mph with a 4mph setting for pavement use. In the tiller - a USB socket to keep you connected on the go.

CLASS - 3
