F5 Corpus[®] VS

permobil

Standing anywhere

The F5 Corpus® VS offers an exceptional ride quality thanks to fully independent 4-wheel suspension together with all the power seat functions of the F5 Corpus in addition to the benefits of standing.

Stand confident

Standing is an efficient way to promote greater independence. The F5 Corpus VS has fully programmable sequences allowing the position to be optimized using supine, semi-reclined or sit to stand techniques. Further customize standing positions with adjustable anterior chest pad, moldable knee supports and power footplates.

Corpus® – follows the contours of the body

The Corpus seating system features an ergonomic design that follows the contours of the body. Improved comfort, pelvic positioning, lateral stability and immersion are all key objectives of the new Corpus cushions.

Active Reach

Tilts the seat forward by up to 45° and raises it to extend functional reach, aid in transfers and your daily activities.

Active Height

Enables you to drive up to 5 km/h while fully elevated and combines seamlessly with *Active Reach* to give you the ultimate advantage in accessing your environment.

Agile suspension

The fully independent suspension on all wheels offers a superior ride comfort, traction, stability and is especially beneficial for active outdoor driving

More drivability

The new Permobil battery and Permobil VoltPro charger work together to provide you with a greater driving distance, optimized charging times and longer battery life.

Safer driving after dark

Optional LED lights front and back for improved brightness and visibility.

Standing promotes independence and reduces the load on sitting bones

The power recline with seamless shear reduction moves between positions

F5 Corpus[®] VS Specifications

| | |
|---|----------------------------|
| Max. speed | 12 km/h |
| Range (G24: 85 Ah batteries) | 40 km* |
