

Zest & ZestPlus

Either of the Zest models are the perfect portable companion. They have a great range of features and easily come apart into a few manageable sections.

The Zest and Zest Plus are scooters from TGA that dismantle into a few easy-to-lift parts. The compact Zest and larger Zest Plus include advanced suspension front and rear so you can be assured of a smooth ride whether travelling along the pavement, grass or gravel.

This level of comfort is exceptional for a car boot scooter as they drive like bigger scooters, yet are compact enough to fit in your car boot. Any model in the Zest range comes apart really easily and can be put back together simply. It has a luxurious seat for extended comfort and the tiller is simple to use. With a tight turning circle it is highly manoeuvrable around the shops and there is plenty of legroom on board.

- Simple to take apart, liftable components, easy connections
- Modular design allowing for easy storage and transportation
- Excellent levels of stability and manoeuvrability
- All round suspension for added comfort
- Zest Standard battery has a range of up to 8 miles (13km)
- Zest HD has bigger battery range of up to 14 miles (22.5km)
- Zest Plus has a range of 18 miles (29km)
- User weight of up to 25 stone (160kg)

"My previous two TGA scooters have made such a difference to my life and I wouldn't be without my latest Zest Plus."

What's different about the Zest Plus? It's bigger!

If you are looking for more space and stability when driving, then the Zest Plus is longer, wider and has larger wheels with pneumatic tyres.

Despite having bigger battery capacity, strain-free lifting is still assured because the battery pack cleverly splits in two. So it's quick to remove and easy to take indoors for charging (using the battery charging dock).

The Zest and Zest Plus also possess advanced suspension for a seamless ride over smooth and rough terrain, giving it some of the capabilities of a larger scooter but in a compact frame.

It's an ideal choice if you want a shopping companion to get around town. One of the best scooters your money can buy, the all-round ability of the Zest Plus represents all the innovation and quality expected from TGA.

Simple release mechanism for removing battery packs

Advanced suspension for comfort associated with larger scooters

Split twin batteries for easier lifting

Standard features on all Zest models

Ergonomically designed tiller is easy and comfortable to use with controls that can be operated with fingertips or thumbs

The design is so simple that putting together or taking apart can be done with one hand

Dismantles easily into manageable sized sections, no complex connections or fiddly fittings and the heaviest component weighs 27kg

Options and Accessories

Walking stick clips – can fit either side or both

Rear bag

Zest Plus battery charging dock
